

The Valley View Community Drug-Free Coalition was organized in response to the heroin epidemic in our community. The coalition is committed to informing the community about addiction and its consequences. This initiative is a community-wide effort devoted to dissolving the stigma connected to addiction. The underlying work of the initiative are four areas of focus: education, community planning, law enforcement, and faith-based. The Valley View Community Drug-Free Coalition welcomes anyone who is concerned about this issue and invite you to join us in our efforts.
